Special Notes for AOL Members

Instant Messenger For AOL Members

The AOL Instant Messenger™ service is an extension of the popular Buddy List™ and Instant Message™ features AOL members enjoy today. As an AOL member, you don't need to do anything new to take advantage of Instant Messenger. All of the features are already built into the AOL 3.0 software.

What is new, however, is that now you can add non-AOL members to your Buddy List and send instant text messages back and forth to your non-member friends and colleagues on the Internet. We've made it possible for anyone on the Internet who is a registered Instant Messenger user to "talk" with one another (this includes AOL members).

[Sign on a friend to AOL Instant Messenger!](#)

[Use Instant Messenger at Work!](#)

You may want to include business colleagues, co-workers, and other work-related people on your Buddy List.

Use Instant Messenger to communicate internally or with colleagues outside of your organization. Get answers faster. Gather information. Coordinate meetings. Make decisions immediately online!

Instant Messenger is designed to connect people to people -- whether for work or for play.
